\$4,000. The marked strength that rallied the New York stock market towards the close Monday was manifest on the Stock Exchange again yesterday and any efforts made to stem the upward course of prices proved unavailing. The bear contingent concendustrials proved refractory under attempts | at manipulation for a decline and rallied, the declines in each case being more than recovered. The more pacific outlook in Europe and the subsidence of the alarm over the outbreak in Crete as shown by the early reports of contractions on the continental houses and in London was, of of the market. The conviction that the to contention over the Greek occupation of Crete soothed the fears of foreign capitalists and American securities participated in the gain enjoyed by others on the London exchange. London also bought the American market. The general outlook is also regarded as favorable. The January trade statement, while it does not show so heavy a trade balance in our favor as in some recent months, still shows a balance unprecedently large for January and gives no evidence of the turn of the balance against us and the consequent outflow of gold looked for at this time of year. London buying of our stocks adds to the strength of the country's financial position. The activity imparted to the steel rail trade by the dissolution of the pool and lower prices is also a favorable factor. There were encouraging reports also of the outlook for the increased movement of grain. All these

causes may be said to have contributed to 60c: West Virginia, lubricating, 20@30c; miners' the upward tendency of the market to-day. 45c; lard oils, winter strained, in bris, 60c per The only notable properties to manifest depression at any time to-day were Tennessee Coal and Iron, Leather preferred, Chicago Gas, Manhattan, Western Union and Tobacco. The declines in these, which were more than recovered were: Leather preferred and Tobacco, 1; Western Union, %; Manhattan and Tennessee Coal and Iron and Chicago Gas, 1 each. It is expected that the governors of the Stock Exchange to-day will take action on the contract with the gold stock telegraph controlled by the Western Union for ticket service. Rumors as to what that action will be were used to depress Western Union. The other declines were similarly due to special causes, which were nullified during the day by the upward tendency. Sugar was buoyant throughout, apparently on account of the relief at the termination of the inquiry into its affairs by the legislative committee, which has passed to the Rubber Company. There were evidences of inside buying in Sugar which, as usual, enjoyed a large proportion of the attention of the exchange. The stock advanced 2%. to 114%. The grangers led the general advance in the railway list, gaining an average of about a point. The anthracite coalers also showed prominently in the late dealings. In the usually inactive stocks, Consolidated Gas jumped 3½ points to 150½ on an abatement of fears of unfavorable legislation at Albany. St. Paul, M. & M. and Lake Shore gained 1 to 11/2. The final hour was active, showing marked improve-

erally the best of the day. The bond market displayed an improved tone and slight gains were recorded in the principal liens. Purchases for investment account continue to exert a shadying influence, with foreign interests absorbing all of the gilt-edge securities offered. The sales were \$1,547,000. The changes generally lack importance except in remote cases. Government bonds hardened perceptibly on purchases of \$129,000. The floating supply of the issues is being extensively drawn on by local and out-of-town financial inter-

RAISE THE PRICE AGAIN. Courthouse Yard Teamsters Go Beyoud All Reasonableness.

The trouble between Contractor Purdy reached a point where forbearance ceases he has enough men and teams engaged to ty commissioners. The teamsters had at could not make \$1.50 a day at that rate. This was looked upon as a reasonable claim | May ribs, 10c lower at \$4.021/2. and the people generally were with the teamsters. Yesterday Mr. Purdy offered to pay 30 cents a load and allow all teams that came to haul as much as they could get loaded. This would give some work to all the teamsters who want it. The offer was flatly refused by the teamsters, and they then demanded 35 cents a load. A meeting was held and the offer was indignantly re-

It was then that Mr. Purdy made his statement to the county commissioners. He said he had offered to pay as much as was possible under his contract, and that it was | Lard-May very doubtful if he could come out even treating with the men or committees, he work regardless of the committees. He said that individual members of the teamsters union had come to him and said they were willing to go to work at 30 cents, and would gladly do so. Others also offered teams at this rate. Mr. Purdy says he has enough teams engaged to do the work, and that he will begin this morning. He has had no trouble with the shovelers, He pays them 121/2 cents an hour, and they are satisfied and will work for that. Mr. Purdy does not expect trouble this morning, for he thinks that the public will be with him in the fight, now that he has offered to pay 30 cents a load and the offer has been refused. He says he will be prepared to go to work at 7 o'clock this morning, and that the teams not engaged by him must keep out of the courthouse yard and not block his progress. If they insist on doing this he will call on the police for as-

to be accepted. These men said they part of the striking teamsters to prevent others from working.

Toll-Road Collections in Jefferson. To the Editor of the Indianapolis Journal:

In your issue of the 1st inst. you say: "A correspondent writing from Madison demands that the Legislature reduce the charges of toll roads to 1 cent a mile. The value of the corn crop of this county for 1894 (the latest authority at hand) was \$250 -848. I have no knowledge that your correspondent has ever been quoted as an authority here on this or any other subject. ALBERT D. MILLER.
